

PROCEEDINGS OF THE BROWN COUNTY
PUBLIC SAFETY COMMITTEE

Pursuant to Section 19.84 Wis. Stats., a regular meeting of the **Brown County Public Safety Committee** was held on Wednesday, June 3, 2009, at the New Public Safety Communication Center, 3030 Curry Lane, Green Bay, Wisconsin.

Present: Carole Andrews, Bill Clancy, Andy Nicholson, Andy Williams.

Excused: Tom DeWane.

Also Present: Terri Delaruelle, Bob Heimann, Don Hein, Tom Hinz, Jack Jadin, Dennis Kocken, Jim Nickel, Cullen Peltier, Susan Tilot, Lisa Wilson.
Media, Other Interested Parties.

Tour of the New Communication Center.

- I. **Call Meeting to Order:**
The meeting was called to order by Chairman Andy Nicholson at 5:31 p.m.
- II **Approve/Modify Agenda:**

Motion made by Supervisor Andrews and seconded by Supervisor Williams to approve. MOTION APPROVED UNANIMOUSLY.
- III. **Approve/Modify Minutes of May 6, 2009:**

Motion made by Supervisor Andrews and seconded by Supervisor Clancy to approve. MOTION APPROVED UNANIMOUSLY.
1. **Review Minutes and Reports of:**
 - a. **Criminal Justice Coordinating Board (4/28/09):**

Motion made by Supervisor Andrews and seconded by Supervisor Clancy to receive and place on file. MOTION APPROVED UNANIMOUSLY.

Communications

2. **Communication from Supervisor Knier re: Ask Sheriff to review trespassing issues on private property adjacent to Fonferek Park (referred from May County Board):**

Supervisor Knier stated that she felt this is an important issue and wants the Sheriff and the Public Safety Committee to look into this. She stated that there were kids coming into County land, crossing into private property, and building teepees, forts, bonfires, etc. She stated that there were pictures e-mailed to the Staff concerning this, and she would like to see the issue addressed.

Supervisor Williams asked about signage in the area. Supervisor Knier stated that there are already signs, and some of those have been torn down. She asked that the County Staff distribute the previously mentioned e-mail and pictures to Committee members.

Supervisor Williams asked Sheriff Kocken if there had been complaints received. Sheriff Kocken said he was not aware of any calls and would like to think that if people are trespassing, someone would call.

Supervisor Andrews asked if Supervisor Knier knew if "Private Property" signs had been posted; Supervisor Knier stated that she thought so.

Sheriff Kocken asked Supervisor Knier that if the person taking the pictures saw this again, would that person take additional pictures and date those pictures. Supervisor Knier said, "Can Staff look at that photo in our office and see if there's a date posted on it?" Lisa Alexander, County Board Secretary, responded in the affirmative.

Motion made by Supervisor Williams and seconded by Supervisor Andrews to receive and place on file. MOTION APPROVED UNANIMOUSLY.

3. **Communication from Supervisor Clancy re: To have the Public Safety Committee and the Facility Master Plan Committee to explore the feasibility of requesting bids for 24,000 sq. ft. building and a 48,000 sq. ft. building to be located on the County Property at the Mental Health Site. This should have the following specs: 6" concrete floor with in-floor heating; 16 ft. side walls and fully insulated. That would give us a basic cost to house all Sheriff, Drug, Emergency Bomb Squad & Impound vehicles (referred from May County Board):**

Supervisor Clancy distributed a fax from Corrigan's Custom Built Structures (copy attached). Supervisor Clancy asked that the feasibility of building a new building be considered as opposed to "trying to retrofit," although he said he knew price would be a factor.

Motion made by Supervisor Andrews and seconded by Supervisor Williams to refer to Facilities Master Plan Committee. MOTION APPROVED UNANIMOUSLY.

4. **Communication from Supervisor Williams re: To review the policies and procedures of the Clerk of Courts Office relating to employees in the Office (referred from May County Board):**
Supervisor Williams asked that this be referred to Staff.

Motion made by Supervisor Clancy and seconded by Supervisor Andrews to refer to Staff. MOTION APPROVED UNANIMOUSLY.

Teen Court

5. **Teen Court Stats:**
Terri Delaruelle, Program Manager, reported a successful open house on May 12. She also stated that a grant application was submitted to the Crime Prevention Foundation and is awaiting a reply.

Ms. Delaruelle stated that Ben Heimann, President of Imperial Lane Neighborhood Association, contacted her concerning possible service projects that offenders and volunteers could perform.

Ms. Delaruelle also stated that there were two training sessions last month for past defendants who became (4) volunteer jury members and (3) volunteer attorneys. At Supervisor Nicholson's request, Ms. Delaruelle will call him to let him know what those persons were charged with.

Motion made by Supervisor Andrews and seconded by Supervisor Clancy to receive and place on file. MOTION APPROVED UNANIMOUSLY.

Public Safety Communications

6. **Budget Status Financial Report for April 30, 2009:**

Motion made by Supervisor Andrews and seconded by Supervisor Williams to receive and place on file. MOTION APPROVED UNANIMOUSLY.

7. **Commuting in Emergency Management Vehicle:**
Supervisor Andrews stated that she felt that if anyone should drive a County vehicle home, it should be the Emergency Management Director (Cullen Peltier).

Motion made by Supervisor Clancy and seconded by Supervisor Andrews to approve. MOTION APPROVED UNANIMOUSLY.

8. **FoxComm Agreement (held from previous meeting with the motion: To hold for one month and instruct Public Safety Communications**

Director, Jim Nickel, to review the agreement with Board Attorney Fred Mohr and to bring it back at the earliest possible date):

Mr. Nickel stated that he met with Mr. Mohr and is awaiting a reply from Mr. Mohr concerning whether Mr. Mohr or Attorney John Luetscher will proceed with this.

Tom Hinz, County Executive, stated that he learned that the equipment than needs to be transported is very delicate and requires special handling. Mr. Nickel questioned whether Brown County's Information Services (I.S.) or FoxComm's personnel would do this. Bob Heimann, Brown County Information Services Director, expressed concern about the possible liability. Mr. Hinz suggested that this topic be held for 1 month in order to obtain cost information.

Motion made by Supervisor Clancy to have our I.S. Department move the simple server and find out what the bid is and let whoever has inform us of the cost and then let us know what it is and take care of it. No Second. MOTION FAILED.

Additional conversation ensued concerning cost and timetable for the move of this equipment.

Motion made by Supervisor Clancy and seconded by Supervisor Andrews to let us see what the bid is for moving the equipment and come back to us next month. MOTION APPROVED UNANIMOUSLY.

9. **Director's report:**

Mr. Nickel reviewed Director's Report (copy attached). He expressed particular concern about the decision by the State to divert the 911 surcharge fee to the General Fund instead of reimbursing 911 centers statewide. He stated that this could significantly affect the Budget and future grants. (See attachments.) Mr. Hinz reiterated that this could really impact Brown County and suggested that each person contact his/her legislators. Lengthy discussion ensued.

Motion made by Supervisor Williams and seconded by Supervisor Andrews to receive and place on file. MOTION APPROVED UNANIMOUSLY.

District Attorney

10. **Monthly Drug Criminal Complaint Numbers (standing item):**

Susan Tilot, Administrative Supervisor, distributed several reports: (1) Budget Status Report; Criminal Drug Charges Filed in May 2009; and January through May, 2009, Demographics. (Copies attached.)

Ms. Tilot stated that 80 percent of the case backlog had been eliminated.

Supervisor Andrews requested an update next month concerning developing a comprehensive policy and the cooperation between departments. She stated this would be helpful for developing next year's budget. Ms. Tilot suggested that this be put on the Agenda for next month.

Motion made by Supervisor Andrews and seconded by Supervisor Clancy to receive and place on file. MOTION APPROVED UNANIMOUSLY.

Sheriff:

11. Key Factor Report for June:

Motion made by Supervisor Andrews and seconded by Supervisor Williams to receive and place on file. MOTION APPROVED UNANIMOUSLY.

12. Budget Status Financial Report for March 31, 2009:

Motion made by Supervisor Andrews and seconded by Supervisor Clancy to receive and place on file. MOTION APPROVED UNANIMOUSLY.

13. Request for Budget Transfer (#09-34): Increase in Expenditures with Offsetting Increase in Revenue: Increase expenditures for wages and fringes for an additional DEO officer for the Village of Suamico for May through December 2009. The Village will add the cost to their 2009 police services contract resulting in offsetting revenue. This position was already approved in a resolution in March, 2009:

Motion made by Supervisor Clancy and seconded by Supervisor Andrews to approve. MOTION APPROVED UNANIMOUSLY.

14. Grant Application Review (#09-25): Crime Prevention Grant:

Motion made by Supervisor Andrews and seconded by Supervisor Clancy to approve. MOTION APPROVED UNANIMOUSLY.

15. Sheriff's Report:

Sheriff Kocken stated that there are several grants for training for which the Sheriff's Department will be applying. He stated he will bring these to the Committee next month.

Motion made by Supervisor Andrews and seconded by Supervisor Clancy to receive and place on file. MOTION APPROVED UNANIMOUSLY.

Circuit Courts Budget Status Financial Report for April 30, 2009:

Motion made by Supervisor Andrews and seconded by Supervisor Clancy to receive and place on file. MOTION APPROVED UNANIMOUSLY.

Clerk of Courts No agenda items.

Medical Examiner Budget Status Financial Report April, 2009:

Motion made by Supervisor Andrews and seconded by Supervisor Williams to receive and place on file. MOTION APPROVED UNANIMOUSLY.

Other:

20. Audit of Bills:

Motion made by Supervisor Andrews and seconded by Supervisor Clancy to pay bills. MOTION APPROVED UNANIMOUSLY.

21. Such other Matters as Authorized by Law: None.

Motion made by Supervisor Williams and seconded by Supervisor Andrews to adjourn at 6:29 p.m. MOTION APPROVED UNANIMOUSLY.

Respectfully submitted,

Lisa M. Alexander

RE: Budget Costs for building

As per our discussion, to construct a new building in the size of approx 48,000 sq ft you would be looking at approx \$25 per sq ft or \$1,200,000.00. This would be based on an open warehouse with insulation, heat and basic electrical needs. Also with a couple overhead doors.

Office area in the approx size of 8,000 sq ft would be around \$70 per sq ft or \$560,000.00. This would be for the basic office, heat/AC, basic electrical needs (including IT stubs), plaster and painted walls, carpet or equal to in flooring.

It is approx \$5 to \$6 per sq ft for the services of an architect/ engineer to design and oversee the project. Where as a Design Build Contractor does not have incur the costs and can pass those savings onto the customer.

If there is anything else I can do please let me know.

Thanks

Scott Corrigan,
Corrigan's Custom Built Structures

Director's Report June 3, 2009

1. New 911 Communications Center Project

The new control console furniture arrived on schedule, May 11th. Installation of the console computer systems was completed on May 22. Installation of console electronics began on May 20th.

We held a readiness call with all vendors on May 29th and determined that the late June move date was realistic. We have had great cooperation from our vendors and internal teams. Everyone is working extremely hard to meet the dates. Much testing of all sub-systems still remains to be done. Some examples are:

- County Fiber to CH Annex
- Copper lines to GBPD
- T1 Line to the Pullium Plant
- CAD console electronics
- Telephone console electronics
- Radio console electronics
- Standby radios
- Jail Master Control radio consoles
- Security system

Agency meetings will be set up to discuss final details of the cut-over with them.

2. New 911 Telephone circuits

AT&T has developed a plan to meet their revised 911 service date of 6/16. At this time they are on their revised schedule and it will be a photo finish. This remains the largest schedule risk outside of our control.

3. Replacement Computer Aided Dispatching System

We have issued a contract to Motorola for the CAD central equipment. The formal Project Kick-Off Meeting has been scheduled for June 9th, with operational service expected in October. When completed, this will allow us to leave the shared Foxcomm CAD system and eliminate that cost from the 2010 budget.

4. Supervisor

Judith Weshinsky-Price resigned to take a job as Manager of the Amarillo, Texas 911 Center. We are advertising for her replacement.

5. 800 MHz Rebanding

We reprogrammed the central controller on the 800 MHz voice system on May 27-28, after several false starts the previous week. The negotiation began with Sprint/Nextel in 2005, inventory in 2006 and a final agreement in 2008. The County received approximately \$1M in equipment and services in this contract.

Last year we requested and received a wavier from the Federal Communications Commission to extend the Rebanding effort to May 30th. The Fixed Network Equipment for the voice system has now been retuned to the new frequency and we will return our radio frequency to Sprint/Nextel on schedule.

6. Alltel

On May 20th, Alltel finally cut-over to E911 Phase II Wireless location after successful testing with the Center.

7. Overtime

The 911 Center overtime hours, which also includes mandatory holiday pay for our 24/7 operation, has been cut over 57% in the past four years by careful scheduling of our shifts and managing the training times. (See attached graph).

8. New State E911 Surcharge

On Saturday, May 23, the State Joint Finance Committee drafted a proposal to set a 75-cent per month E911 surcharge on all communication devices. Instead of forming a pool to reimburse the 911 Centers for operational costs as originally suggested, the Governor decided to divert all of the money into the General Fund.

This causes us a major budget problem for the following reasons:

- a. We now will have all the Wire line 911 and Database management costs added to our budget (Approximately \$450,000).
- b. We will not receive reimbursement for Wireless 911 line costs (\$43,000 last year).
- c. We will be ineligible for future Federal Grants.
- d. The public will believe they are paying for 911 services with this surcharge and the 911 Centers will get NONE of it.

For us to cut \$500,000 from our 2010 budget will mean cutting eight Telecommunicators, at a time when we should be adding staff to keep up with the increasing call volumes.

Regards,

Jim Nickel
Director

March 18, 2009

Doyle's proposal to divert 911 surcharge would make Wisconsin ineligible for federal 911 grants

By MATTHEW DeFOUR
608-252-6144

mdefour@madison.com

Gov. Jim Doyle's proposal to divert \$100 million from a 911 surcharge to funding for local governments would make the state ineligible for federal 911 grants and remove an existing surcharge that saves 911 centers \$7 million a year.

"This is just going to be devastating for the counties," said Waukesha County director of emergency preparedness Richard Tuma, who is part of a coalition that urged the state's budget committee to create a 75-cent monthly 911 surcharge on all phone lines, including cell phones and Internet phones.

Doyle said Thursday that the state should use the \$100 million generated from that surcharge to offset further cuts to local government aid in the face of a \$1.6 billion budget shortfall.

• State budget deal would cut money to schools, lay off up to 1,400 (May 22)
• State budget roundup

"It's \$100 million supporting police and fire protection," Doyle spokesman Lee Sensenbrenner said. "What the governor put in his strategy is a way to make sure police and fire protection is preserved or saved from revenue cuts.

But an existing 16-cent monthly surcharge on land lines, which would be replaced by the 75-cent surcharge, covers the cost of phone companies providing 911 service to counties. That 16-cent surcharge generates about \$7 million, Tuma said.

If phone companies don't cover the lost surcharge, Dane County's 911 center may have to pay an extra \$557,000, or the equivalent of eight full-time positions.

"Our law enforcement and fire partners continue to be among the strongest advocates for investing the dollars necessary to have the highest quality public safety communications system," Dane County interim 911 director Kathy Krusiec wrote to County Executive Kathleen Falk. "It's ironic that the state would suggest that the proposed diversion of funds would preserve public safety."

The state also may not be able to get any piece of \$43.5 million that the National 911 Office is doling out in coming months. When Congress created the grant program in 2004, it prohibited states that use 911 surcharge funds for other purposes from receiving the funds.

Last year Congress passed the Net 911 Improvement Act, which allows states to assess a surcharge on wireless phones, but only if they use the money for 911 purposes, said

Patrick Halley, government affairs director for the National Emergency Number Association.

“The practice (of states using 911 funds for other purposes) has been going on for many years,” Halley said. “Congress has clearly demonstrated that they do not think that states should be doing this.”

PUBLIC SERVICE COMMISSION

911 Grant Program and Surcharge

Motion:

Move to create a 911 grant program administered by the Public Service Commission (PSC) and authorize a surcharge to provide program funding as follows:

Basic Surcharge. Impose a monthly surcharge on certain communication service connections to provide funding for the 911 system based on the following provisions:

A monthly 911 surcharge would be imposed beginning on the first day of the third month beginning after the budget act's effective date. The surcharge would apply to each active voice and non-voice communications service connection that is capable of accessing the 911 system. Initially, the surcharge would be set to a maximum of seventy-five cents or a lower amount set by the PSC, as described below. The surcharge would be payable by the subscriber to the service provider. Service providers would be allowed to list the surcharge separately from other charges on the bill. Partial payments made by a subscriber would be applied first to the amount the subscriber owes the service provider for service. The maximum surcharge would be adjusted annually based on the change in the consumer price index for the Midwest region, U.S. Department of Labor, for the month of August of the previous year and of the year before that year.

The PSC would be required to monitor the revenues and interest generated by the surcharge. If the PSC determines that the rate produces revenue in excess of the amount needed, the PSC would be required to reduce the rate, provided that rate would ensure full cost recovery for grant recipients over a reasonable period. A change in the amount of the surcharge rate would become effective only on January 1 of each year. The PSC would be required to notify providers of a change in the rate at least 90 days before a change becomes effective.

If the PSC determines that the surcharge rate produces revenue that is less than the amount needed, the PSC would be required to increase the rate. The increased rate would be required to ensure full cost recovery for grant recipients over a reasonable period, but no increase could result in a surcharge greater than the maximum surcharge, as adjusted by the change in the consumer price index for that year, as described above. A change in the amount of the surcharge rate would become effective only on January 1 of each year. The PSC would be required to notify providers of a change in the rate at least 90 days before the change becomes effective.

Surcharge for Subscribers of Prepaid Wireless Plans. Exclude prepaid wireless telecommunications plans from the preceding surcharge and instead base the surcharge for those

surcharge.

911 Fund. Create a SEG fund called the 911 fund based on the following provisions.

With guidance from the 911 Advisory Board (described below), the PSC would administer the fund. The PSC would be required to credit to the fund all revenues remitted to it from the surcharge imposed under this proposal, and revenue in the fund could only be used as provided in this proposal. The PSC would be allowed to deduct and retain for its administrative expenses up to 1% of the annual revenues generated by the fund. All remaining revenues in the fund would be used to make grants under this proposal. In February of each odd-numbered year, the PSC would be required to issue a report to the Legislature. The report would be required to contain complete information regarding receipts and expenditures of all funds received by the PSC during the period covered by the report, the status of the 911 system in Wisconsin at the time of the report, and the results of any related investigations by the PSC completed during the period covered by the report.

Grants. Authorize the PSC to make grants to reimburse service providers and local governments maintaining designated public safety answering points for incurred costs, previously approved by the PSC based on the following provisions. Limit the total amount of grants to any provider or local government to the estimated amount approved in the grant by the Commission for that provider or local government.

Service providers would be eligible for reimbursement of actual costs incurred in complying with the requirements of enhanced 911 service. Costs of complying would include costs incurred for designing, upgrading, purchasing, leasing, programming, installing, testing, or maintaining all necessary data, hardware, and software required to provide service as well as the recurring and nonrecurring costs of providing the service. Reimbursements would be limited to costs and expenses that are commercially reasonable, and all invoices for reimbursement would have to be related to compliance with the requirements of enhanced 911 service. Enhanced 911 service would be defined as the delivery of 911 calls with automatic number identification and automatic location identification to an appropriate public safety answering point by selective routing based on the geographical location from which the call originated and providing either a specific street address or information defining the approximate geographic location, in accordance with orders promulgated by the Federal Communications Commission.

Grants to local governments would be limited to those governments operating a designated primary public safety answering point that was in operation as of November 30, 2008, except that for counties without wireless enhanced 911 services on that date, one local government operating a public safety answering point in each county would be eligible for grants if that government is designated as the primary public safety answering point in the county. Further, grants would be limited to actual costs incurred by the public safety answering point in complying with the requirements of enhanced 911 service. Costs of complying would include costs incurred for designing, upgrading, purchasing, leasing, programming, installing, testing, or maintaining all necessary data, hardware, and software required to provide service as well as the recurring and nonrecurring costs of providing the service, and costs associated with training public safety

answering point personnel. To obtain reimbursement, a local government's designated primary public safety answering point would have to submit an annual application to the PSC identifying expenses eligible for reimbursement under the program and listing the invoices for reimbursement that are related to compliance with enhanced 911 service requirements. Further, the application would have to include the costs of landline 911 trunks and charges for the designated and authorized public safety answering points in the county.

A local government that receives a distribution from the fund would be prohibited from using the amount received to pay for the lease or purchase of real estate, radio equipment for field personnel or equipment, or the purchase of police vehicles, ambulances, fire engines, or other emergency vehicles, or their associated emergency personnel. Distributions would be required to be used for the following items:

- designated public safety answering point personnel training expenses including salaries while in training, the cost of transportation, lodging, instructors, certifications, improvement programs, quality assurance training, and training associated with call-taking, and emergency medical, fire, or law enforcement procedures;

- the lease, purchase, or maintenance of equipment in the designated public safety answering point used in the delivery of 911 calls such as phone systems, database provisioning, addressing, voice recorders, instant recorders, computer-aided design (CAD)/computer systems, GIS functions including computerized geographical information including street centerlines, natural features, commonly identified named facilities, ortho-rectified photography, and oblique imaging, dispatcher consoles and their radio equipment, local exchange carriers and 911 public safety answering point trunk and line costs and their data maintenance costs, 911 trunks and charges for authorized public safety answering points within a county system; and

- charges associated with the service supplier's 911 service and other service supplier recurring charges. The designated public safety answering point providing 911 service would be responsible to the voice communications or other service providers for all 911 installation, service, equipment, operation, and maintenance charges owed to the service provider for a county system. A designated public safety answering point would be allowed to contract with a service provider on terms agreed to by it and the service provider.

If the total amount of invoices submitted to the PSC and approved for payment in a month exceeds the amount available from the 911 fund for reimbursements, the amount payable to each service provider and local government would be reduced proportionately so that the amount paid would not exceed the amount available for payment. The balance of the payment would be deferred. A local government and its designated public safety answering point would be required to comply with all requests by the PSC for financial information related to the operation of the public safety answering point and, upon request, to provide a copy of its annual audit to the PSC. Any local government with a designated public safety answering point would be required to include the designated public safety answering point in the local government's annual audit.

911 Advisory Board. Create a 911 Advisory Board based on the following provisions.

The PSC would be required to appoint a board to advise it concerning the administration of

Brown County
District Attorney
